

## Soft starters for Naval Applications

Driving peripheral pumps for the main gas turbine  
 Motor ratings: 440V, 105A-390A

RVS-DN 105-390A, 440V

Solcon's expertise was called upon to start motors of various ratings on board the French & Italian Horizon Class frigates.

Customer's specification and special requirements for vibration & shock tests resulted in a mechanical modification of the RVS-DN starters.

The starters were tested and approved for the elevated vibration & shock requirements by the Marine and Military Institute in La-Spezia.

Horizon class AAW Frigate
